About Us

Thank you for choosing St. Martin Cabinetry!

We are a custom manufacturer and distributor of contemporary and design-focused frameless kitchen cabinetry based in Cressona, PA. The curated products we offer showcase our focus on exceptional design as they utilize natural and architectural elements to create cohesive and contemporary spaces. Exacting quality, and our pledge to adhere to it, is the cornerstone of our brand. Our hand-crafted products are engineered to create a feeling of tranquility and luxury. All of our natural rift white oak doors are an excellent example as each piece manufactured is meticulously wire-brushed to create texture, interest and appeal.

As a company, you will find that we are service and performance driven. From the start of your project until the time that it is completed, we strive to offer exceptional customer service, functional and coherent pricing and design systems, strict quality standards and on-time deliveries. This is our pledge to you and when we are successful, together we enhance people's lives and the spaces they call home.

Manufacturing can take a toll on the environment which is why our products are tailor-made with sustainability in mind. With each kitchen we sell, we give back so our forests are replenished and our valleys are verdant and lush. By reducing our carbon footprint where possible and by extracting efficiencies, we are able to reduce the environmental costs our products create.

This year, we are ecstatic to share that we have elevated our product offerings including new door styles and finishes that espouse contemporary and natural elements like warm wood-tones, natural materials and neutral colors. We have also expanded our manufacturing capabilities in the United States which affords you the freedom to design unique spaces without cumbersome limitations. Our updated product plan has been simplified and is now separated by finish type, wood species, door style and color.

Our painted products are available on an array of door styles and have been specifically developed to reflect market trends and designer needs. They also feature competitive lead times and affordable price-points making it easy to create value at the point of sale. New to the offerings are Sage and Pewter Green - two bold and vibrant colors that artfully pair with warmer wood tones and neutrals. Repose Gray and Anew Gray, two hallmarks of Sherwin Williams neutral palette, are also now available. Some consumers are looking for darker colors that are bold, earthy and serious which is why we released Iron Ore, another Sherwin Williams hallmark. Finally, custom paint colors can be ordered for

all door styles to afford even greater customization and flexibility when designing unique spaces. Our wildly popular slim-frame door profile, as seen on the Hampton Square (H2) door has been expanded with the introduction of the Montauk Door style. This door features a 3/4 inch square frame around the door and is perfect for more contemporary or transitional spaces.

Our stained products have also been revamped. You will notice that all of our stained finishes are now broken down by the type of wood species used during the manufacturing process. Rift Cut White Oak, Natural Walnut and Cherry are exotic wood species that create warm, contemporary and relaxing environments which is why they are the foundation of our stained product platform. Each piece manufactured is hand-crafted and undergoes a 16-step process to ensure uniformity and quality. New to our stains is Washed Walnut, a lighter and wilder cousin of our Natural Walnut. Whether used in a Frank Lloyd Wright inspired mid-century home or in a modern Manhattan high-rise, the finish and grain is sure to inspire creativity. We also added two more contemporary stains on cherry – Pewter and Onyx. These stains seek to re-envision cherry with unique coloring, grain patterns and corresponding colors.

In addition to our updated Product Guide, our hood program features numerous key additions including several new transitional wood hoods. We also now offer custom wood hoods so if you can dream it, we can build it! The styling of our standard hoods is sure to complement any kitchen design and they are available in almost all of our painted and stained finishes.

We anticipate 2024 to be an exciting year and for our new product plan and program enhancements to lead us into the next year and beyond. We truly appreciate your continued support and offer our deepest gratitude for the opportunity to serve you.

Order Process

Merchandising Guide

Below you will find an exciting array of merchandising materials to aid you in the sales and design process. These packages have already been discounted and will be available to all approved and registered dealers at NET pricing.

No further discounts apply.

Quick-Start Package \$750

Our Quick-Start Package is a new offering that includes 13 of our most popular door and color combinations from our entire collection. The doors are artfully housed in the included solid wood unit which is designed to fit on any counter top. The package also includes five brochures, two specification books, a color sample display and a molding block set.

Merchandising Center \$3,000

The Merchandising Center is an excellent showroom display tool that showcases our cabinet box construction and our most current doors and colors. The merchandising center showcases two of our signature finishes, Rift Cut White Oak and Onyx Oak in our newest door style, Montauk. The complete kit and includes two base cabinets put together with a beautiful, white quartz counter top and a top rack which displays our most popular door and color combinations. The center also comes with 25 brochures, two specification books, a color sample display and a molding block set. Installation is easy and can be done in less than 2 hours.

Showroom Displays

There is no better way to showcase St. Martin Cabinetry than designing and installing a display for your showroom. Please inquire with your sales representative for pricing, applicable discounts and style options. All showroom displays must have approval from your sales representative.

Product Plan

Our product plan was designed with simplicity in mind. It is split into two categories; painted and stained finishes. They are organized lightest to darkest in descending order and also segregated by wood species for stained finishes. All St. Martin products, regardless of the price group and door/color selection, feature the same incredible plywood cabinet construction and box specifications. There are no other product or finish upcharges making pricing a breeze.

Painted Products:

Our painted products come on an array of door styles and have been specifically developed to reflect market trends and designer needs. They are durable, vibrant and epitomize the craftsmanship inherent to our brand. All painted finishes including custom colors, feature unmatched finish quality and affordable price-points making it easy to create value at the point of sale.

Highlights of Painted Products:

- New and exciting modern colors are carefully arranged in our product guide by color group. Within the groups, brighter tones are organized in descending order making it easy to see the entire color palette.
- Painted finishes feature a faster lead time for applicable door styles. Please inquire with our customer service department to see if your order qualifies.
- Expedited turnaround time for replacement and add-on parts and cabinets.
- All modifications and SKUs found within this spec book are available in addition to custom doors and panels.
- Custom paint colors are available using any standard colors from Benjamin Moore or Sherwin Williams.

Stained Products:

Our Stained Products are offered on a plethora of exotic wood species like Rift Cut White Oak, Natural Walnut and Cherry and come in a variety of heirloom and modern finishes. All stained products are carefully hand-crafted and undergo a 16-step process with the finest attention to detail.

Highlights of Stained Products:

- Luxury finishes on exotic wood species such as Natural Walnut, Rift Cut White Oak and Cherry. Within the wood species groups, lighter finishes give way to warmer and then darker finishes in descending order.
- All hardwoods and veneers used for our stained products are hand-selected for grain, uniformity and color.
- All White Oak products, regardless of color, are meticulously wire-brushed to add texture, warmth and tranquility.
- Weathered Cherry undergoes the process of sand-blasting which opens the top grain and creates a beautiful and textured finish.
- The Clayton, Montauk and Hampton Square door styles feature a vertical grain match automatically at no extra charge for all drawer fronts.

Order Process

If you are a new account, the following must be on file before any orders can be processed:

- Signed Credit Card Authorization
- Signed Dealer Agreement
- Current Sales Tax Exemption Certificate
- Signed Personal Guaranty (Only applicable if credit terms are requested)
- Signed Dealer Product & Awareness Form

Please use the following to process an order:

To submit an order, please either fill out the St. Martin Order Form or submit a PDF Quote generated from either 2020 Design or ProKitchen. The quote should show our SKUs, descriptions, and the applicable door and color selections. Properly itemized written lists can also be accepted.

- Please indicate whether you would like the order delivered or scheduled for pickup. If you would like the order delivered, please provide the delivery address, desired ship week and any special job-site conditions we should be aware of.

ORDER PROCESS

- Email new orders directly to sales@stmartincabinetry.com. We do not accept orders over the phone. All orders must be submitted in writing.
- St. Martin Cabinetry will only accept orders from accounts in good standing; please reach out to our accounting department for details about your payment terms and current account status.

How the process works:

- Upon receipt of your order, our customer service team will review and send back an order confirmation within 2-3 business days. Please note that if your order contains items that require a custom drawing, you must approve the custom item(s) before a formal acknowledgment can be sent.
- Please take time to thoroughly check your confirmation to ensure that the color, door style, items, delivery information, and projected ship week all accurate.
- Should your order require revisions, please email them to our customer service team who will subsequently send back a revised confirmation for final approval. Please be aware that any delays during the order process may affect the projected ship week.
- To finalize and immediately place your order into production, please sign the bottom of the order confirmation and send it back to our customer service department. Confirmations are also accepted via email. By confirming the order, you take full responsibility for any and all errors on the order form.
- Due to the custom nature of our cabinetry, we do not accept cancellations or modifications once an order has been confirmed with customer service.
- One to three weeks prior to projected ship week found on the finalized order confirmation, our shipping department will contact you to schedule delivery.

If you have any questions or need help placing an order, please contact our Customer Service Team directly and we will be happy to assist you.

Delivery Policies and Procedures

Lead Time Information for all Finishes

- Your lead time does not begin until your order is confirmed with customer service. If you have terms that require payment or deposit, we cannot place your order until your payment obligation has been met. A delay in payment can delay your projected ship week. Our lead times may vary and are updated weekly. Please check our weekly update e-blast for details or inquire with customer service for our current lead-time information. Please be aware that any SKU or modifications in this book labeled with a double asterisk (**) are only available at a 10-12 week lead time. Painted finishes in select doorstyles are available at a 6-8 week lead time.

Painted Finishes Replacements & Add-ons

- Painted replacement and add-on items that do not require a truck delivery will take 1-3 weeks from the time that an order is confirmed, some exclusions apply.
- Painted replacement and add-on orders of less than five cabinets that require a truck delivery will take 2-4 weeks from the time an order is confirmed, some exclusions apply.
- Replacement items that require a truck delivery will take 2-4 weeks from the time that an order is confirmed, some exclusions apply.

Stained Finishes

- All kitchen and vanity orders with stained finishes will have a 10-12 week lead time from the time that an order is confirmed.

Stained Finishes Replacements & Add-ons

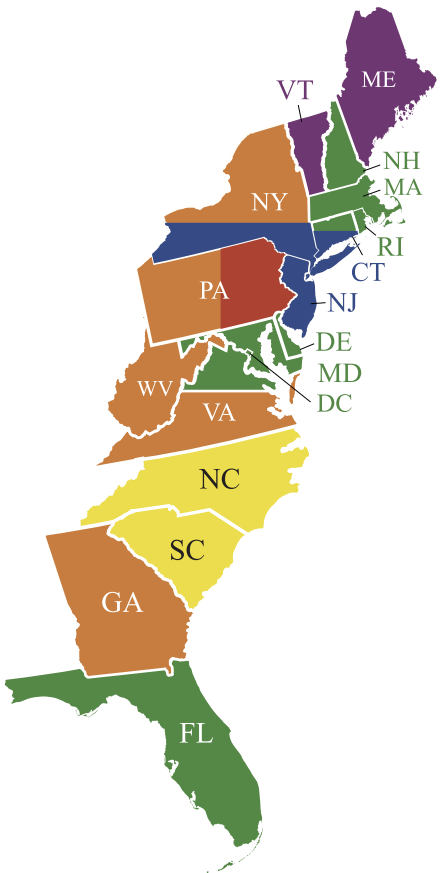

- All replacement or add-on orders that require a truck delivery have a 10-12 week lead time from the time the order is confirmed. There are some exceptions to this rule, please inquire with customer service to see if your order can be expedited.
- Replacement or add-on orders that do not require a truck delivery can be expedited. Please inquire with customer service to see what costs, if any, will be applicable with this service.

Delivery & Storage Fees

- We offer seamless and stress-free deliveries for most commercial and residential addresses within the Continental United States. Please refer to the shipping matrix for accurate fees associated with your delivery zone.

- Deliveries for shipping zones 1 - 3 are normally made by St. Martin company vehicles; however St. Martin reserves the right to use third party delivery services due to distance, difficulty of the run or lack of trucking capacity. Should St. Martin choose to use a third-party service, you will be notified by email and given all applicable information. You will need to schedule and confirm your delivery with the third-party service directly. Additional fees may apply based on specific job-site conditions or requests made with the third-party.
- If job-site delivery is required, please specify this on the order form. For Zones 1-3, the delivery will be made by a driver and helper to the first available location which is normally the garage or first floor. Dealer is responsible for ensuring that all delivery areas are accessible with our equipment and that all cabinets will be deliverable inside. Please check and confirm that large cabinets, range hoods and pantry cabinets will fit through doorways. More difficult deliveries, such as ones to city apartments or construction sites that are not easily accessible, may incur an additional delivery charge and may be sent to a third-party shipper. The shipping department should be notified when there are special circumstances.
- Deliveries to zones 4-7 will be transported LTL or Common Carrier at the sole discretion of St. Martin and an authorized person must be present on site to accept the delivery. At times, last mile delivery may not be available. All LTL deliveries are curbside only. All deliveries that require a lift-gate will incur a fee of \$200. Oversize pallets may also be subject to additional fees and may result in lift-gate delivery being unavailable. Please note that the final cost of the delivery may change from what is on the sales order due to changes in the address, type of delivery or delivery requirements.
- Orders that are not able to ship for two weeks or more beyond the confirmed ship week will incur a storage fee of \$40.00 per business day starting on the first day of the third week. Once an order is available to ship after being delayed, it will need to be worked into the shipping schedule based on availability. This may result in additional fees. It is best to make sure the projected lead time on your order coincides with the project's schedule. We will not store orders more than 2 months, but should the need arise for additional time, please contact the shipping department. Please be aware that St. Martin Cabinetry reserves the right to cancel any orders stored after two months and keep any monies collected or charge a restocking fee, whichever is applicable. If an order is transported to a third-party warehouse or distribution center, additional storage fees may be incurred. St. Martin reserves the right to deny damage claims for orders that have been stored for over 15 days. As a manufacturing facility, it is a risk the dealer accepts when asking us to store their orders.
- Should we be unable to deliver any order due to dealer fault, the order will be returned and a redelivery fee of \$250 will apply. Rescheduling is based on trucking availability and storage charges begin on the day of intended delivery. St. Martin reserves the right to deny damage claims for orders that have to be redelivered. As a manufacturing facility, it is a risk the dealer accepts when asking us to store their orders. Multiple deliveries will equate to multiple charges.
- Parts items may be shipped via common carrier and a damage disclaimer may need to be signed. Additional charges may apply.

Delivery Zone	Region	Showroom or Commercial Delivery (80 cabinets maximum)	Jobsite Delivery	Minimum Jobsite Delivery Fee
Zone 1	Eastern PA	\$150	\$18 per cabinet	\$200
Zone 2	NJ/Southern CT/ Southern NY	\$150	\$18 per cabinet	\$200
Zone 3	DC/DE/MA/MD/ Northern CT/NH*/ Northern VA/RI/FL***	\$200	\$20 per cabinet	\$300
Zone 4	Northern NY, Western PA, VA/WV/GA/FL***	\$400	\$22 per cabinet**	\$650
Zone 5	NC/SC	\$550 or \$25 per cabinet (whichever is greater)	\$25 per cabinet**	\$750
Zone 6	ME/VT	\$650 or \$30 per cabinet (whichever is greater)	\$30 per cabinet**	\$850
Zone 7	All other states****	\$2,500	\$2,500	\$2,500

* Certain areas of NH may incur additional fees.

**For Zones 4-7, orders may be shipped LTL or Common Carrier at the discretion of St. Martin. If lift-gate service is requested, there will be an additional fee of \$200. All orders shipped LTL may be subject to oversize or overweight charges based on pallet dimensions. LTL Deliveries are curbside only

***All counties in Florida east and south of Leon County are Zone 3. Leon county and all counties west are Zone 4.

***Deliveries to FL directly from our PA warehouse may be subject to additional delivery costs

****Flat fee of \$2500 is to be charged. In the event that the actual cost is less than \$2500, you will be credited the difference or billed for the balance if over \$2500

Eastern PA Includes all counties East of Dauphin County.

Southern CT Only includes Fairfield County.

Southern NY Includes all counties south of Albany.

Northern CT Includes all counties in the state except Fairfield County.

Northern VA Includes the following counties: Arlington, Clarke, Culpeper, Fairfax, Fauquier, Frederick, Loudoun, Madison, Prince Williams, Rappahannock, Spotsylvania, Stafford and Warren.

Northern NY Includes all counties North of Albany.

Southern VA Includes all counties not found in Northern VA.

Western PA Includes all counties west of Dauphin County.

Delivery Process

- One to three weeks prior to the projected ship week displayed on your finalized order confirmation, we will send an email to the email address on record to schedule your delivery based on the shipping address found on the order confirmation. Please note that if the delivery address is changed at any time after confirmation of the order with customer service but before confirmation of the delivery date and time with the shipping department, an additional fee of \$100 may apply. The delivery date and time must be confirmed by email to maintain the delivery date and time provided. Once a delivery has been confirmed, changes or cancellations will result in an automatic fee of \$100 and storage on the products will begin immediately. Changes to the address after confirmation of a delivery will result in a \$150 fee and will be accommodated at the sole discretion of the shipping manager. If a delivery is being handled by a third-party shipper, we will let you know when it is scheduled to arrive at their warehouse so you can make the necessary arrangements for final delivery.
- On the day of delivery, the driver will call one hour before arrival to let you know their estimated time of arrival. Please make sure you have an authorized person on site to accept the delivery and sign the delivery note. Any delays, through no fault of St. Martin, or the inability to have an authorized person on the site may result in additional charges and a redelivery fee.
- When the order arrives at your dock or job site, make note of any visible damage on the driver's delivery form in addition to contacting customer service.

Concealed Damages & Missing Product

- The policy of St. Martin Cabinetry requires the customer to check the enclosed packing list for accuracy at the time of delivery in addition to any damages that may have occurred. St. Martin Cabinetry will not take the responsibility for any item missing from your order unless we are notified at the time of delivery. Once the order has been delivered, or picked up, and signed for, the order becomes the responsibility of the customer. We understand that no freight carrier is perfect and that items may get lost or damaged during shipping, so it is imperative that you check your order at the time of delivery.
- Immediately report any missing or damaged items to the driver at receipt of the shipment in addition to our customer service team. Claims for damages or missing items must be accompanied by pictures and a fully documented claim form. All claims for damage, shipping and otherwise, must be made prior to installation of cabinets and decorative hardware. St. Martin Cabinetry will not accept ANY claims for concealed shipping damages 15 days after delivery or after installation. All claims for missing items must be made at the point of delivery and noted on paperwork at time of delivery.

Return/Cancellation Policy

- All products sold must be signed for by the purchaser. In signing this, you as the purchaser take responsibility for payment of the product.
- All of our products are built to order and due to the custom nature of our business we do not accept returns, changes or cancellations under any circumstances once an order has been signed or confirmed via email by the dealer.

- St. Martin does not inventory pre-built cabinets; please make sure that confirmed orders are complete and accurate.

To process a damaged cabinet/part

- In the event you have damaged items, please use the following process so any issues can be resolved quickly and efficiently. Our process has been designed to provide insight into problems so they can be addressed by either preventative or corrective actions to eliminate the potential for recurrence.
- Immediately take pictures of the damaged part and packaging and email them to our customer service department: sales@stmartincabinetry.com. If the damage is visible prior to unloading, take pictures of the damage while it is still in the truck. Your email communication should include the order number, door style, finish and the items needed for replacement along with photos of the damage. This information is crucial for processing your warranty claim and for the development of future preventative measures. Without photos your warranty will not be reviewed for processing.
- Do not use, destroy or discard the damaged product. In the event that St. Martin Cabinetry or the freight carrier wish to retrieve the damaged product, you will be contacted within one week from the date that the damage was first reported.
- If we are not supplied with photos or the item is not made readily available for pick-up, you will be charged for the replacement.
- We do not accept any claims for hidden or concealed damages after 15 days from the date of delivery. We also do not accept any claims for hidden or concealed damages once our products have been installed.

St. Martin Warranty

Limited Lifetime Warranty

St. Martin warrants to the original purchaser that all cabinets purchased from St. Martin will be free from defects in material and workmanship under normal residential use. This limited warranty is subject to certain limitations and exclusions outlined below. This warranty applies to the original residential cabinet purchaser only and is nontransferable. This limited warranty does not apply to any electrical components of any type whatsoever commercial properties, rental properties and any other non-residential properties and is applicable only, or as long as the original purchaser owns their home, within the United States and Canada. Due to the custom nature of its products and their unknown intended application presentation of fitness or merchantability for a particular purpose for any product.

Exclusions - As with all natural materials, wood is affected by environmental factors such as natural and artificial lighting, smoke and age. Darkening or mellowing can be expected and is a natural process for wood as it ages. Each wood species also exhibits its own distinctive grain patterns and characteristics which adds to its natural beauty. These variations in color, grain and other naturally occurring characteristics are not considered imperfections or defects. This warranty does not cover natural aging and darkening of the wood color nor does it apply to the inherent growth characteristics of wood. All electrical components, including but not limited to ventilation units and LED lighting are sold as is with no warranty whatsoever, and with no representation of merchantability or fitness for a particular purpose.

Finish Variation - All wood varies in color from piece to piece due to natural variation in tone and grain patterns. While St. Martin takes extra steps in selecting each piece of wood to enhance the natural beauty of our products, we cannot guarantee that every component will exactly match other components. The resultant natural variation in finish is not considered a defect and is not covered by our limited warranty.

Pitch Pockets and Mineral Streaks - In certain species of wood, pitch pockets and mineral streaks are prevalent. This is particularly true of the beautiful Cherry lumber used in producing some St.Martin products. These naturally occurring features of our North American grown Cherry and other lumbers are not considered to be defects and are not covered by our limited warranty.

Hairline Cracks - Environmental factors influence the performance of wood products. All wood absorbs and releases moisture due to its cellular structure. In periods of high humidity, wood will "grow", and during dry periods, wood will "shrink". Over a period of time, the absorption and release of moisture may cause visible hairline cracks typically in joinery of wood components. These minor cracks are not considered defects and are not covered by our limited warranty.

Warping - Warping occurs in wood when the absorption and release of moisture creates "stress" in the wood. In many instances, this condition will resolve itself after the cabinetry in your home goes through a heating and cooling cycle. Warping of components is allowed up to one quarter inch (1/4") and is not considered a defect covered by this limited warranty.

Fingerprints - Fingerprints can occur on wood products, especially darker painted finishes, due to oil and residue left on the human hand. Fingerprints are normal and are sometimes found on products that receive heavy usage or were not installed with hardware on doors, drawers or other accessories. Fingerprints on our finishes and products are expected to occur with normal usage and are not considered a defect covered by this limited warranty.

Household Cleaners - Certain household cleaners and other substances, whether acidic, basic or

neutral, may affect the color and integrity of the product's finish over time. Any such effects on the color and/or integrity of the finish are not covered by this Limited Warranty. Please contact your authorized dealer for care and cleaning instructions.

Limitations of Liability

- This warranty applies only to normal indoor consumer use. All electrical components of any type whatsoever and product used for commercial or outdoor use is excluded. Not covered under this warranty are cabinets showing normal wear and tear; dings, dents, finish wear, and scratches on installed cabinets, cabinets that were not stored or installed properly, improperly assembled or disassembled, intentionally damaged, misused, or exposed to elements; cabinets that have defects due to excessive moisture, accidents or negligence; and cabinets that have been changed or modified in any way.
- This warranty is expressly limited to the repair or replacement of the defective component parts at our discretion. Our liability is expressly limited to the cost of material for the repair or replacement of defective goods. We may elect to repair or replace the product with a product of equal or lesser value and complementary style if the original style is no longer available. Due to the aging process of natural wood, St. Martin Cabinetry can't guarantee an exact match between the finish of the existing product and the replacement product.
- In no event is St. Martin Cabinetry liable for incidental, indirect, or consequential damages resulting from the use of our cabinets. This warranty does not cover electrical components, the cost of assembly, installation, removal, subsequent damage or transportation of the defective product or replacement.
- When a claim for warping, joint separation, wood growth or color variation for new replacements on an existing cabinetry is submitted, St. Martin Cabinetry may, at its sole option and after inspection, defer action for 12 months to allow the product to age, oxidize, and acclimate to the installed environment, In the case of stained wood product new product replacements and add on pieces will need a minimum of 12 months to naturally age and catch up to previously installed natural wood pieces.
- Some states do not allow limitations on how long an implied warranty may last or the exclusion and or limitations of incidentals and/or consequential damages. Therefore the above limitations may not apply.
- This warranty shows specific rights that may vary from state to state. Any claims made under this warranty must be presented in writing with a dated sales invoice accompanied by photographs of defective material.
- The remedies put forth above are your sole and exclusive remedies and outline St. Martin's entire liability for any breach of this limited warranty.

- No other warranties apply. This limited warranty is effective for product manufactured by St. Martin America Inc. on or after April 1, 2024.

Making a Warranty Claim

Please contact the dealer from whom you purchased the product for warranty assistance. If you are unable to contact your authorized dealer, you may contact our customer care team. Please include your name, address, phone number and original proof of purchase as well as photographs of the product in question to customer service.

Product Specifications

Wood Characteristics

Wood cabinetry is as unique as a fingerprint; no two pieces are the same. Each piece of lumber and each piece of veneer is truly one of a kind. Soil and climactic conditions affect growth characteristics, presence of mineral streaks, gum spots and knots, and creates striking coloring and grain patterns. These naturally occurring variations give wood its distinct character and exceptional beauty.

St. Martin takes great care in selecting the finest quality kiln-dried hardwoods for your kitchen. Lumber is dried to a 6-8% moisture content to ensure that your cabinetry remains stable in most environments. However, wood, by its very nature, will expand during humid months and contract during the dry season, so humidity levels in your home should be carefully monitored. A 40-50% humidity level should be maintained during installation and throughout the year to maintain the proper moisture content of your cabinets. Extremes (below 20% or above 80%) are likely to cause problems with the natural wood.

The best quality hardwoods have certain characteristics that can't be hidden by the finishing process. These natural variations occur due to the fact that the wood is a natural product, affected by weather, climate, birds, insects, soil makeup, number of sunshine hours per year and natural growth patterns for each individual tree. These characteristics are part of the natural beauty, charm and appeal of real wood and should be carefully considered.

AMERICAN CHERRY has a rich color and smooth, flowing grain patterns. Color varies from light pink to dark brown; variations are more prominent with lighter stains. Cherry will darken or mellow with age. This is more noticeable with light stains and usually takes place within the first six months. Sun exposure greatly accelerates this process. Mineral streaks, pitch pockets, pin knots and sap wood all occur naturally in Cherry and are acceptable characteristics.

PAINT GRADE HARDWOODS are used to make painted cabinetry and trim. These woods may include Soft Maple, Birch, or Beech. Typically these woods machine well and have fine grain characteristics that facilitate smooth and consistent finishes.

WHITE OAK is found primarily in the eastern half of the United States. White Oak is noted for its density and strength and it exhibits prominent strong grain patterns typical of the Oak species. Board color ranges from light to medium tan in the heartwood and lighter brown to pale cream in the sapwood, with occasional lighter gray shading. It is a very durable wood. One interesting characteristic of White Oak is the presence of medullary rays which produce a unique pattern and flecking. White oak logs are sometimes sawn in a special way known as "Rift Cut" which produces lumber and veneers that have very straight grain patterns and reduced presence of rays. Rift cutting increases the value of

lumber and veneers which in turn are more typically utilized in producing higher end furniture and cabinetry.

BLACK WALNUT grows primarily in the central and eastern regions of North America. It is highly prized as a species due to its relative scarcity and is considered to be one of the more expensive hardwoods milled in the United States and Canada. Natural Walnut heartwood ranges in color from deeper brown to light brown sapwood is usually lighter brown. The wood is dense and strong with prominent grain patterns. Walnut machines well and accepts stains and finishes nicely. It is considered a premium wood and is used to produce beautiful furniture, cabinetry and millwork.

Effects Of Moisture In Wood

Under normal circumstances, all wood products contain some moisture. Wood is similar to a sponge in that it easily exchanges moisture with the environment. This is true of all wood products, even after they have been finished. Of course, a finish will slow this process, but finished wood still reacts to changes in humidity. When humidity is high, wood will absorb moisture and expand. During times of low humidity, wood will release moisture and contract. Wood will not change size or shape unless its moisture content changes due to humidity. As normal minor variations in humidity occur, the dimensional response of the wood will be imperceptible. To avoid problems, it is recommended that the relative household humidity is maintained in the 40-50% range. Humidity extremes (above 80% or below 20%) are likely to cause problems. Wood products perform best when used in a controlled environment. Problems associated with warping are usually a result of conditions on site storage, installation or use.

Points To Consider

- The density of the wood can affect how much or how little it reacts to changes in humidity. More dense species like Maple will expand or contract more than species like Cherry.
- Effects of moisture may include panel expansion or contraction, joint separation, bowing of the stile or rail and/or expansion/contraction of the stile or rail.
- Wood products located in humid climates are especially susceptible to expansion due to moisture. Product failures due to high moisture conditions are not covered under the St. Martin America warranty. Such locations would include waterfront properties and coastal regions.
- Regardless of location, products installed in non-air conditioned homes are especially susceptible to moisture concerns. Winter and vacation homes should maintain some form of climate control even during the off-season.
- Sometimes doors may swell and bind after installation. Upon activation of the climate control, doors should revert to their original dimension and resume normal operation. For this reason, St. Martin America does not recommend trimming or shaving the door edges. Trimmed doors are not covered

4

Product Specifications

PRODUCT SPECIFICATIONS

ST MARTIN
FINE CABINETRY

under the St. Martin America warranty. Care should be taken to control humidity even during storage and installation.

- Traditional doors with 5-piece construction (stiles, rails and panels) have been engineered to allow some normal expansion and contraction of the panels.
- St. Martin America takes great care in selecting properly kiln dried woods to ensure stability in climate controlled homes. With proper attention to humidity levels (normal fluctuations are expected) your St. Martin America cabinetry will perform reliably and beautifully. Please note that the St. Martin America warranty does not cover product issues related to improper humidity or moisture control.

The St. Martin Finish

The finish you choose for your cabinets will determine the overall atmosphere of your kitchen, and with St. Martin's quality colors, wood species and door styles, you are sure to find a combination that is perfect for you. You can choose from light colored painted finishes, mid-tones, or classic dark stained finishes.

Light and mid-tone finishes accentuate the natural beauty of wood while that darker stains tend to result in a more formal rich and elegant look. Whichever finish you choose, the quality and attention to detail that St. Martin puts into each door will be a source of comfort for years and years to come.

STAINED FINISH Doors and drawer fronts are carefully sanded to produce an exceptional surface that is ready to finish. A transparent stain is sprayed over the surface of the wood and allowed to penetrate and develop the grain. A protective, catalyzed sealer, chosen for its excellent adhesion moisture resistance and sealing qualities, is then applied and oven baked for durability. The surface is then fine-sanded by hand to develop a glass smooth surface for the topcoat. A tough, catalyzed conversion varnish topcoat is applied with airless spray and then oven-baked. This catalyzed conversion varnish finish and oven-curing system was chosen to provide an exceptional beautiful luster that is resistant to moisture and most household chemicals. This final process seals and protects your cabinetry from scratches dents and chips and provides a beautiful, smooth and durable finish.

PAINTED FINISH St. Martin painted doors are hand sprayed and oven baked, layer upon layer, and hand sanded between coats to build up a hard and lustrous finish. Our painted doors are then top coated with a catalyzed conversion varnish that is very durable and protects the surface and allows for easy cleaning. Painted doors may develop hairline cracks at the joints due to moisture gain and loss causing expansion and contraction. This is considered a normal occurrence and is not viewed as a defect.

Heirloom Finish and Glazing- We utilize several processes to create our beautiful glaze finish cabinetry. The first step is to apply the color, which is done in several coats to ensure an even distribution. Next,

ST MARTIN
FINE CABINETRY

PRODUCT SPECIFICATIONS

the glaze is applied and each door is hand wiped to create highlights in the corners and seams. After sealing and fine detail sanding, we apply a catalyzed conversion topcoat to protect the finish. The result is a finish that is both durable as well as beautiful. As is the case with most handmade products, no two will look exactly alike. Please refer to a current sample of Weathered Cherry or Pewter.

Melamine Interiors

St. Martin uses all zero emission (E0) CARB compliant products for the highest level of customer safety. Our melamine interiors are hard, durable and washable to keep your environment clean and chemical free.

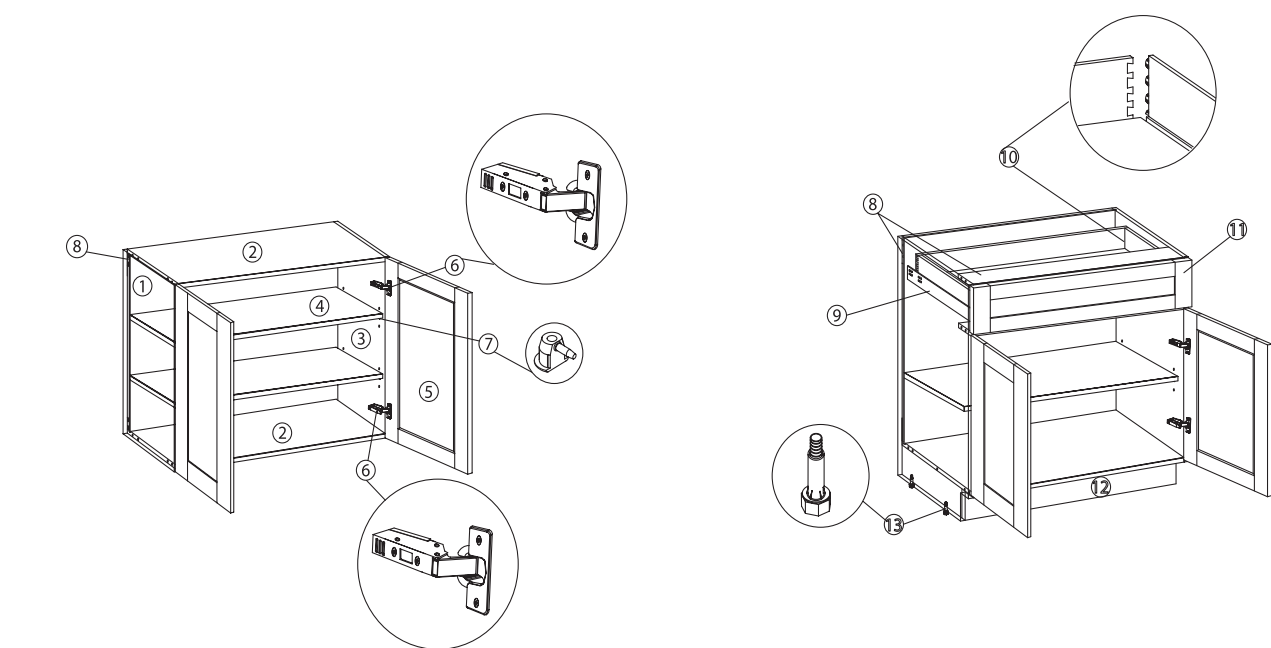

Cabinet Care and Cleaning Guide

St. Martin Cabinetry has an exceptional multi-step finish and is as durable as it is beautiful! Our catalyzed conversion topcoat creates a surface that protects your cabinetry and under normal conditions requires very little maintenance. Follow these steps on basic care and you will enjoy your St. Martin Cabinetry for many years to come:

1. After installation is complete, wipe all cabinets with a damp and clean soft cloth. Dry immediately with another soft and clean cloth.
2. Regular cleaning requires using only a damp cloth and then drying. For tougher areas that have been affected by dirt, grease oil or other contaminants, we recommend using a damp cloth in combination with a fresh solution of mild soap. Immediately rinse with a clean and damp cloth and then dry thoroughly.
3. Warning: Excess moisture, which is especially prevalent near the sink, dishwasher, oven and baseboard areas, should be removed and dried immediately as it may cause warpage or other defects on your cabinetry.
4. Avoid using abrasive cleaners, waxes, detergents, strong soaps and basic or acidic chemicals on or near your products as they may have a deteriorating effect on the finished surface.
5. Avoid using a rag or dishcloth on any finished surfaces as it may contain contaminants or grease.
6. For minor nicks, abrasions, scuffs and scratches, we recommend using our factory supplied touch up kit.

Kitchen Cabinet Construction Details

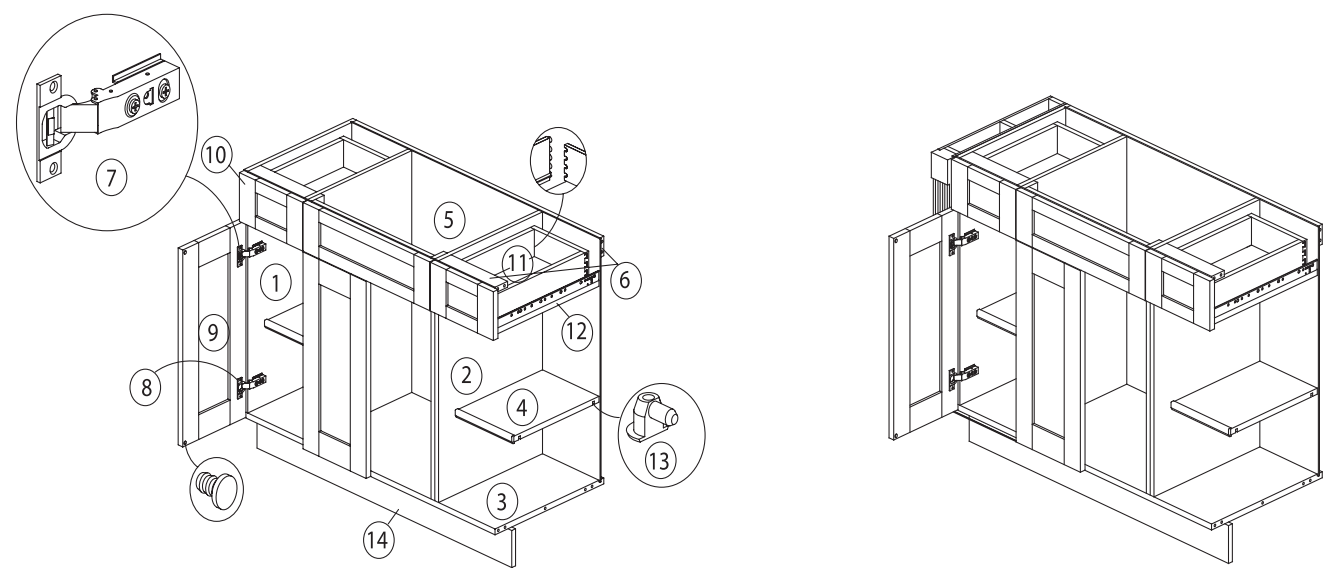

1. Cabinet Back: The cabinet back is 1/4" plywood with a durable wood grain washable melamine interior and is recessed 3/4" from the back of the cabinet.
2. Cabinet Floor and Ceiling: The cabinet floor and ceiling are 3/4" plywood with a durable wood-grain washable melamine.
3. Cabinet Sides: Cabinets are 3/4" thick plywood with a durable wood-grain washable melamine. Sides are dadoed to accept the back panel for added rigidity.
4. Cabinet Shelves: Shelves are 3/4" thick plywood coated with a durable wood-grain washable melamine. Shelves will be banded on rear and two sides with solid wood nosing applied to front edge.
5. Doors: 7/8" solid wood in the style and color of your choice. Please see door style section for the specific construction of your selection.
6. Hinges: BLUM six-way adjustable clip hinges are used easing removal of the doors for installation and providing a great range of adjustment. BLUM soft-close hinges are offered standard for St Martin cabinets. Soft close hinges are not available for diagonal wall cabinets.
7. Shelf Supports: Metal shelf clips are inserted into the sides of the cabinets and feature a locking mechanism with our plywood shelves.
8. I-beam Reinforced Construction: Cabinets are built with a reinforced I-beam construction to offer outstanding strength and stability for the cabinet. I-beam is 3/4" and runs the bath width of the cabinet box.
9. Drawer Slides: The St. Martin drawer slide is a concealed, undermount, full-extension BLUM slide with a 70 lb capacity. This slide is of durable steel construction with a smooth gliding roller system and self-closing feature. Self-adjusting mounting brackets center the drawer for consistent operation. Our drawer slides also feature height adjustment tabs that allow for fine tuning the spacing of the drawer front.
10. Drawer Box: A St. Martin drawer box is made from 3/4" solid birch and is dovetailed at each corner. The drawer bottom is dadoed into the drawer sides and it is fully captured. The whole drawer box gets a clear UV finish.
11. Drawer Front: 7/8" solid wood in the style and color of your choice. Please see door style section for the specific construction of your selection.
12. Cabinet Toe Kick: 4-1/2" high toe space. A 3/4" thick plywood cover panel is available to match the finish of your cabinetry.
13. Leveling Feet: Metal legs are 1/4" high and can be height adjusted to make leveling your base cabinets fast and easy.

Vanity Cabinet Construction Details

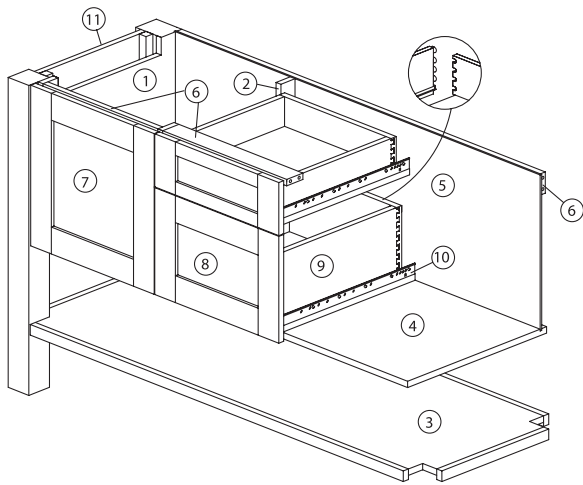

1. Cabinet Sides: Cabinets sides are 3/4" thick plywood coated with a durable wood-grain washable melamine interior and finished on the exterior by default. Exterior sides are dadoed to accept the back panel for added rigidity.
2. Cabinets Interior Partitions Sides: Cabinets interior partitions sides are 3/4" thick plywood coated with a durable wood-grain washable melamine interior.
3. Cabinet Floor: The cabinet floor is 3/4" wood with a durable wood-grain washable melamine interior. The cabinet is held together with dowels to ensure a sturdy, long lasting cabinet.
4. Cabinet Shelves: Shelves are 3/4" thick plywood coated with a durable wood-grain washable melamine. Shelves will be banded on rear and two sides with solid wood nosing applied to front edge.
5. Cabinet Back: The cabinet back is 1/4" plywood with a durable wood grain washable melamine interior and is recessed 3/4" from the back of the cabinet.

- 6. I-beam Reinforced Construction: Cabinets are built with a reinforced I-beam construction to offer outstanding strength and stability for the cabinet.
- 7. Hinges: BLUM six-way adjustable clip hinges are used easing removal of the doors for installation and providing a great range of adjustment.
- 8. Hinges: Our hinged cabinets also feature BLUM soft close hinges standard.
- 9. Doors: 7/8" solid wood in the style and color of your choice. All painted doors will feature HDF (High Density Fiberboard) center panels.
- 10. Drawer Front: 7/8" solid wood in the style and color of your choice. All painted doors will feature HDF (High Density Fiberboard) center panels.
- 11. Drawer Box: A drawer box is made from 3/4" solid birch and is dovetailed at each corner. The drawer bottom is added into the drawer sides and it is fully captured. The whole drawer box gets a clear UV finish.
- 12. Drawer Slides: The St. Martin drawer slide is a concealed, undermount, full-extension BLUM slide with a 70 lb capacity. This slide is of durable steel construction with a smooth gliding roller system and self-closing feature. Self-adjusting mounting brackets center the drawer for consistent operation. Our drawer slides also feature height adjustment tabs that allow for fine tuning the spacing of the drawer front.
- 13. Shelf Supports: Metal shelf clips are inserted into the sides of the cabinets and feature a locking mechanism with our plywood shelves.
- 14. Matching Toe Kick: 4-1/2" high toe space. A 3/4" thick plywood cover panel is available to match the finish of your cabinetry.

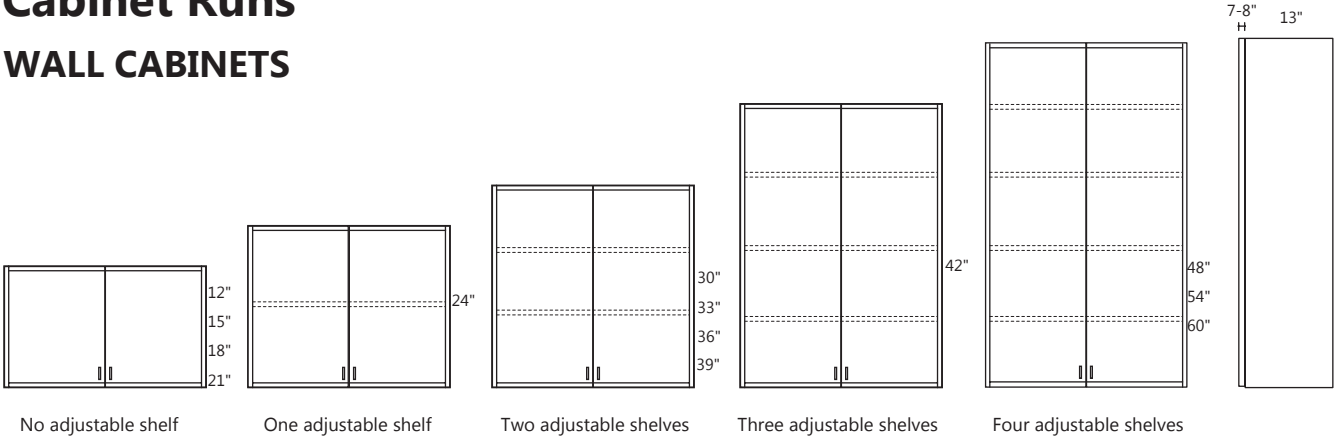

Stockholm Series Vanity Cabinet Construction Details

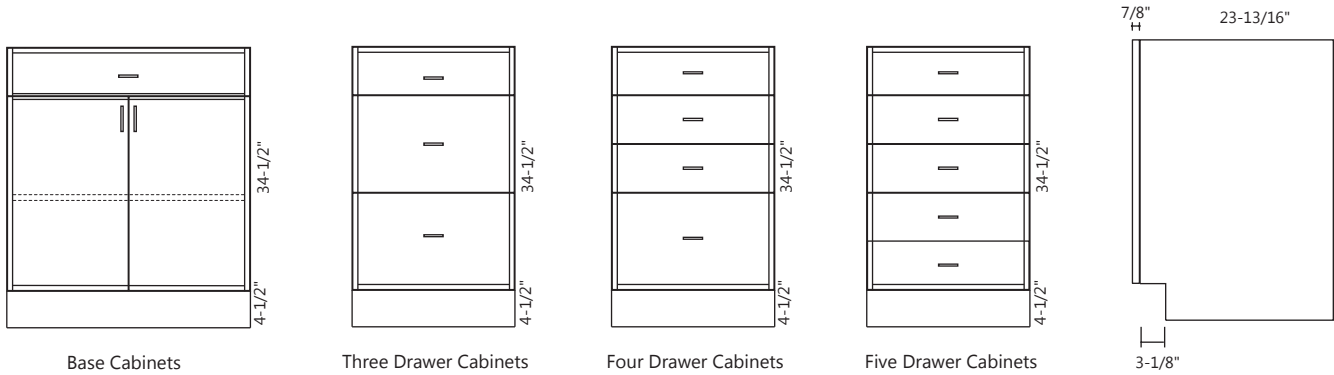

- 1. Cabinet Sides: Cabinets sides are 3/4" thick plywood coated with a durable wood-grain washable melamine interior. Sides are dadoed to accept the back panel for added rigidity.
- 2. Cabinets Interior Partitions Sides: Cabinets interior partitions sides are 3/4" thick plywood coated with a durable wood-grain washable melamine interior.
- 3. Cabinet Leg Connected Bottom Panel: The leg connected bottom panel is 3/4" plywood with solid wood in front.
- 4. Cabinet Floor: The cabinet floor is 3/4" thick plywood with a durable wood-grain washable melamine interior. The cabinet is held together with dowels to ensure a sturdy, long lasting cabinet.
- 5. Cabinet Back: The cabinet back is 1/4" thick plywood with a durable wood grain washable melamine interior and is recessed 3/4" from the back of the cabinet.
- 6. I-beam Reinforced Construction: Cabinets are built with a reinforced I-beam construction to offer outstanding strength and stability for the cabinet.
- 7. Wood Doors: 7/8" solid wood in the style and color of your choice.
- 8. Matching Drawer Fronts: 7/8" solid wood in the style and color of your choice.
- 9. Drawer Box: A drawer box is made from 3/4" solid birch and is dovetailed at each corner. The drawer bottom is dadoed into the drawer sides and it is fully captured. The whole drawer box gets a clear UV finish.
- 10. Drawer Slides: The St. Martin drawer slide is a concealed, undermount, full-extension BLUM slide with a 70 lb capacity. Product Specifications

1. One Side Against the Wall

If one side of your vanity or linen cabinet is to be installed against the wall, a 3/4" filler must be ordered to space the cabinets away from that wall. This will ensure that proper clearances are achieved.

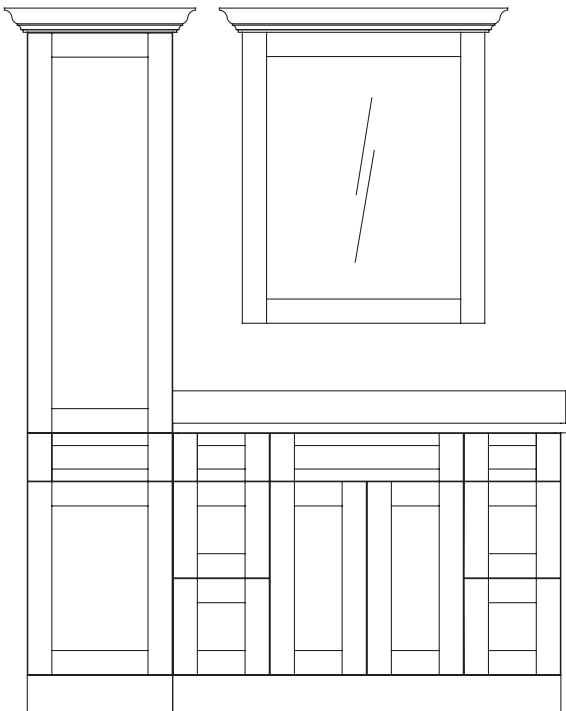

2. Both Sides Against the Wall

When installing a standard vanity cabinet between two walls, fillers must be added to both sides to ensure proper clearance.

3. How to Install the Linen Cabinet

Linen Cabinets of 21" depth are compatible for installation with 21" deep Standard Series vanities as illustrated below.

42H

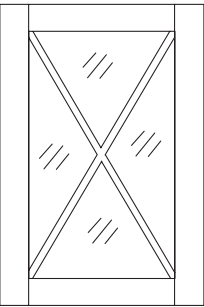

45-60H

	12"-24" H	24+" - 36" H	36+" - 42" H	42+" - 48" H	48+" - 60" H
MGD-C	\$370	\$480	\$570	\$690	\$800
MGD-V	\$480	\$620	\$740	\$880	\$1,000

- Mullions are available for all door styles and the profile will match for all doors except CT, H2, and MT. These doors will have a square profile mullion.
- The minimum size of a mullion glass door is 12"x12" and the mullion profile is 3/4".
- If a MGD is used, you do not need to use the PG modification.
- Price for Clear Glass or Vertical Glass included. Clear glass: MGD-C; Vertical glass: MGD-V
- Fee listed is in addition to the price of the cabinet.

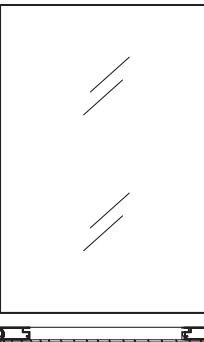

GLASS DOOR OPTIONS - DIAGONAL MULLION GLASS DOOR (DMGD)

	12"-24" H	24+" - 36" H	36+" - 42" H	42+" - 48" H	48+" - 60" H
DMGD-C	\$960	\$1,015	\$1,220	\$1,450	\$1,650
DMGD-V	\$1,200	\$1,320	\$1,580	\$1,880	\$2,145

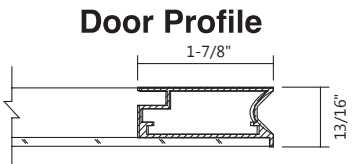

- Diagonal mullions are available for all door styles. The profile will match in all doors except CT, H2, and MT. These selections will have square mullions.
- If the MGD modification is used, you do not also need to use the PG modification.
- Minimum size of a diagonal mullion door is 12" x 12" and the mullion profile is 3/4".
- Fee listed is in addition to the price of the cabinet.
- Price for Clear Glass or Vertical Glass included. Clear glass: DMGD-C; Vertical glass: DMGD-V

WHITE GLASS ALUMINUM DOOR (WGA)

	12"-24" H	24+" - 36" H	36+" - 42" H	42+" - 48" H	48+" - 60" H
WGA**	\$620	\$930	\$1,040	\$1,280	\$1,560

- Aluminum frame with an elegant groove on the edge for easy operation.
- Contemporary white glass with a high surface gloss.
- List price shown is per door.
- No additional door hardware required.
- Available in clear glass only.

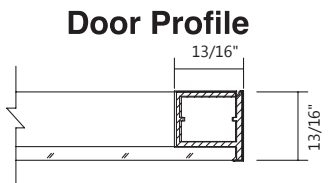

BLACK FRAME ALUMINUM DOOR (BFA)

	12"-24" H	24+" - 36" H	36+" - 42" H	42+" - 48" H	48+" - 60" H
BFA**	\$620	\$930	\$1,040	\$1,280	\$1,560

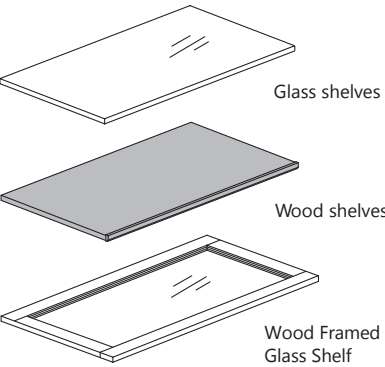

- Clear glass outlined by a modern and slender black aluminum frame.
- Elegant side pull handle for easy operation.
- No additional door hardware required.
- Available in clear glass only.

- Glass shelves are 5/16", have polished edges and are made from tempered glass.
- Wood Shelves are 3/4", edge-banded on rear and two sides with solid wood nosing applied to front edge.
- Glass shelves standard will be provided unless wood shelves are specified.
- Wood-framed glass shelves are 7/8" thick, with 5/16"thick tempered glass.

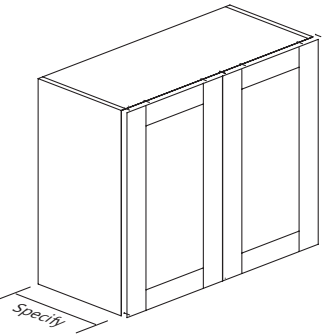

GLASS DOOR OPTIONS - FINISH INTERIOR (FI)

	G1	G2	G3	G4	G5	G6	G7
WFI	\$350	\$350	\$450	\$700	\$800	\$800	\$800
BFI	\$500	\$500	\$500	\$800	\$900	\$900	\$900
TFI	\$800	\$800	\$1,120	\$1,500	\$1,800	\$1,800	\$1,800

- Cabinets receiving a finished interior will also come with a finished bottom automatically. All interior surfaces will be finished to match. Shelves will be matching 3/4" melamine with matching edge banding.
- Finished interiors come standard with finished sides.
- Fee listed is in addition to the price of the cabinet.
- Stained Finished interiors are wood veneer. Painted Finished interiors are painted.
- The finished interior cost listed is to be used in conjunction with glass doors.
- Drawer boxes on base cabinets with a finished interior will be natural birch.

INCREASED DEPTH (ID)

	WALL	BASE	TALL
ID	\$800	N/A	N/A

- Increases can be made in 1/4" increments only.
- Maximum depth is 23-13/16" for all cabinets.
- Fee listed is in addition to the price of the cabinet.

ST MARTIN
FINE CABINETRY

MODIFICATIONS

DECREASED DEPTH (DD)

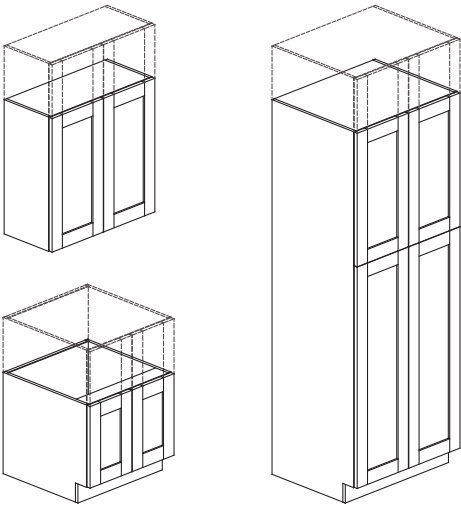

WDD	\$400
BDD	\$500
TDD	\$600

- Cabinets without drawers can be reduced to a minimum depth of 6".
- Cabinets with drawers can only be decreased up to 11.5", 15.5", 19.5" and 21.5". Depths correspond to available drawer slide and box depth. (See following chart)
- Fee listed is in addition to the price of the cabinet.

Cabinets with drawers:

Standard Cab. Depth	Custom Cab. Depth	Standard Drawer Box Depth	Slide Depth
24"	21.5"-24"	20"	20"
21"	19.5"-21"	18"	18"
18"	21.5"-18"-	14"	14"
13"	11.5"-13"	10"	10"

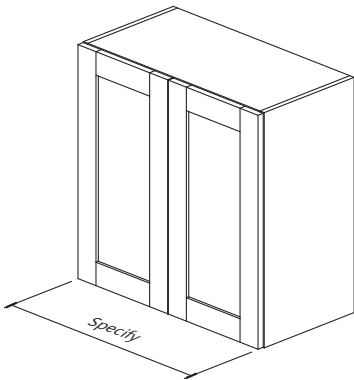

DECREASED HEIGHT (DH)

	WALL	BASE	TALL
WDH	\$500		
BDH		\$600	
TDH			\$700

- Wall cabinets have a minimum height of 6".
- Base cabinets have a minimum height of 12" plus the toe kick.
- Drawers cannot be decreased lower than 6".

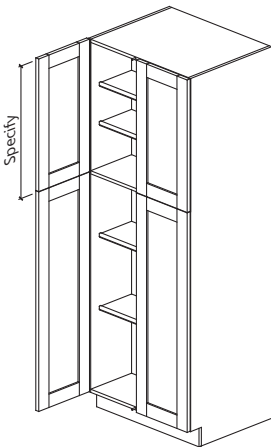

DECREASED WIDTH (DW)

	WALL	BASE	TALL
WDW	\$500		
BDW		\$600	
TDW			\$700

- Start with larger size cabinet and add modification fee.

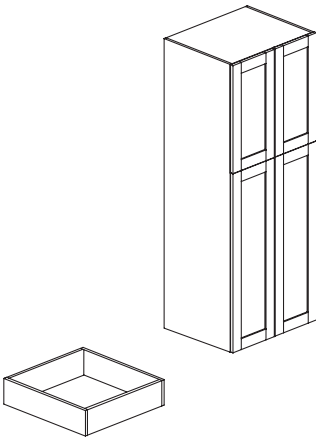

CUSTOM HEIGHT PANTRY DOORS (CHD)

ITEM	G1	G2	G3	G4	G5	G6	G7
CHD	\$600	\$600	\$600	\$600	\$600	\$600	\$600

- A fixed floor partition will be factory installed at desired door split.
- Please specify exact height for door split when placing your order.
- Fee is listed in addition to the price of the cabinet.

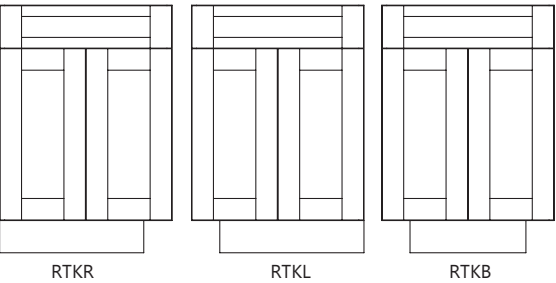

LOOSE TOE KICK PLATFORM (TKP)

	WALL	BASE	TALL
TKP	N/A	\$300	\$300

- May be necessary for tall cabinet installations. The loose toe kick platform reduces the overall cabinet height allowing the cabinet to clear the ceiling and be set up right.
- For base cabinets, may be used to reduce height to clear doorways smaller than 31".
- Fee listed is in addition to the price of the cabinet.

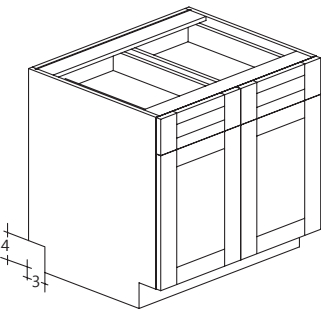

RECESSED TOE KICK (RTK)

	WALL	BASE	TALL
RTKL	N/A	\$250	\$250
RTKR	N/A	\$250	\$250
RTKB	N/A	\$500	\$500

- Available on the left (L), right (R) side or both sides (B).
- Base, tall and vanity cabinets can be ordered with recessed toe kick.
- Must specify end(s) to receive toe kick.
- Fee listed is in addition to the price of the cabinet.

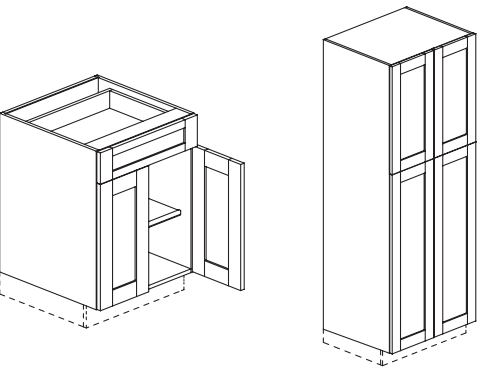

RECESSED TOE KICK BACK (RTKBK)

	WALL	BASE	TALL
RTKBK	N/A	\$300	\$300

- Toe kick will be recessed standard 3".
- Toe kick does not include a finished back.
- For corner cabinet, specify if leftback or rightback.
- Fee listed is in addition to the price of the cabinet.

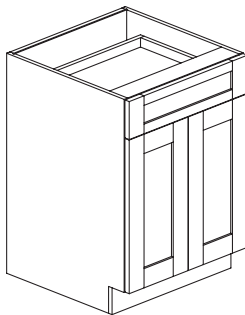

VOID TOE KICK (VTK)

	WALL	BASE	TALL
VTK	N/A	\$250	\$250

- Base, tall and vanity cabinets can be ordered without a toe kick.
- Fee listed is in addition to the price of the cabinet.

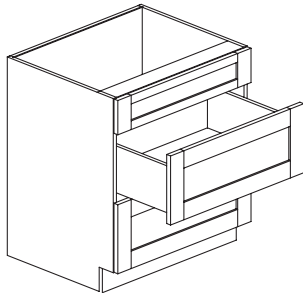

SCOOP TOP DRAWER (STD)

	WALL	BASE	TALL
STD	N/A	\$100	N/A

- Reduced 4" height drawer box for top drawer of base cabinet only.
- 4" high drawer box can be reduced to 2-3/16".
- Fee listed is in addition to the price of the cabinet.

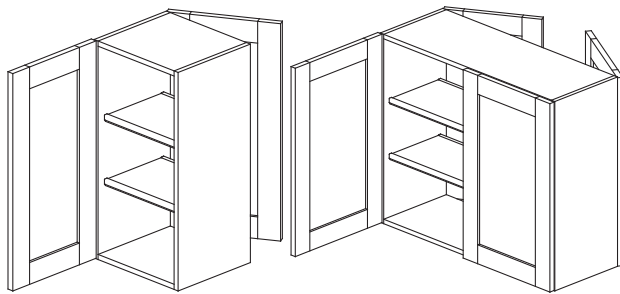

VOID TOP DRAWER BOX (VTD)

	WALL	BASE	TALL
VTD	N/A	\$100	N/A

- Removes top drawer box and runner system on multidrawer stacks.
- Drawer fronts will be attached as a false front.
- Fee listed is in addition to the price of the cabinet.
- Same fee applies if voiding any other drawer boxes

PENINSULA WALL OPTION (PW)

	WALL	BASE	TALL
PW	150%	N/A	N/A

CONSTRUCTION

- Peninsula wall cabinetry products are constructed in the same fashion as non-peninsula wall cabinetry products.
- If wall cabinet is a single door, it will have matching hinging on each side as pictured.
- Upcharge is in addition to the base price of the cabinet.

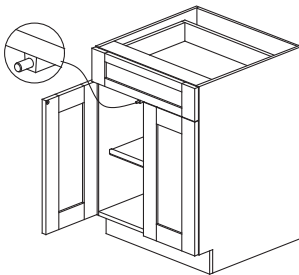

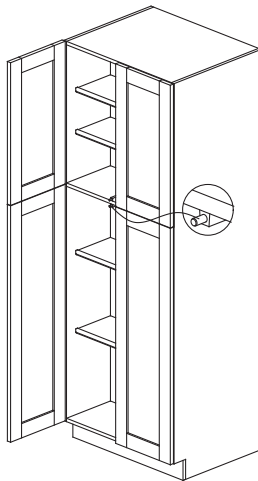

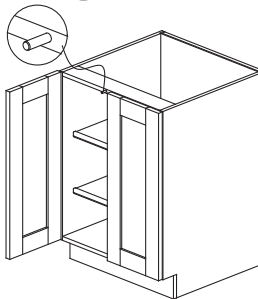

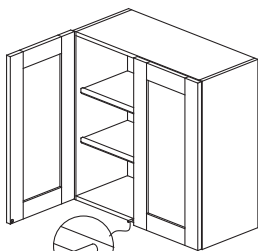

WALL OVERHANG OPTION (OH)

	WALL	BASE	TALL
OH	110%	N/A	N/A

- Doors are extended by 1" on bottom below the cabinet box.
- 10% additional charge for 3/4" over hang doors.
- Upcharge is in addition to the base price of the cabinet.

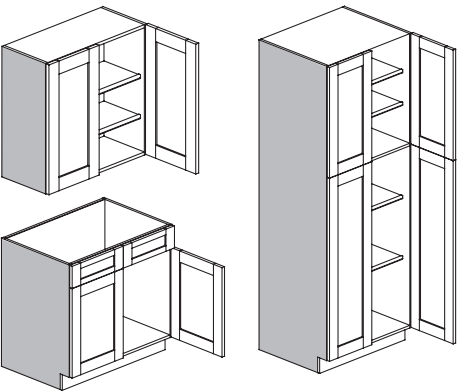

TOUCH-LATCH OPTION (TL)

	WALL	BASE	TALL
TL	\$200	\$200	\$200

- Touch latch modification is applicable for doors only. Please see Tip-On Blumotion modification for touch-to-open drawers.

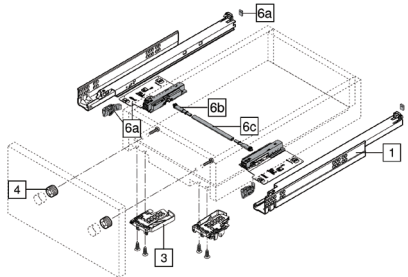

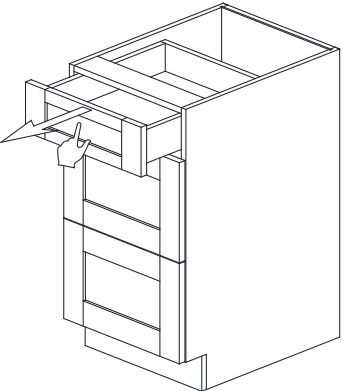

FINISHED END / ENDS (FE) RIGHT / LEFT / BOTH

	G1	G2	G3	G4	G5	G6	G7
WFE	\$200	\$200	\$250	\$300	\$350	\$350	\$350
BFE	\$250	\$250	\$300	\$350	\$400	\$400	\$400
TFE	\$400	\$400	\$560	\$745	\$900	\$900	\$900

- Base, tall and wall cabinets can receive matching ends.
- Available in all finishes.
- Fee listed is in addition to the price of the cabinet.
- Stained finished ends are produced using solid wood veneers.
- Painted finished ends are flawlessly finished using paint-grade hardwood.

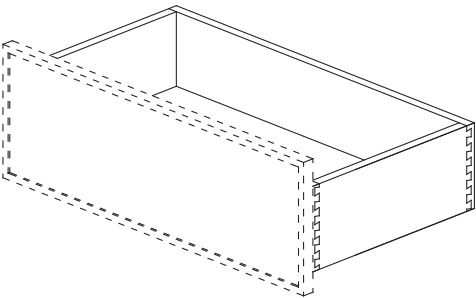

TIP-ON BLUMOTION (TBL)

TBL	\$350 Per Drawer
-----	------------------

- BLUM TIP-ON function for handle-less drawer fronts.
- Four-dimensional front adjustment.
- Extensive trigger range.
- Synchronized feather-light glide.
- Synchronization for the cabinet widths 12" and wider.

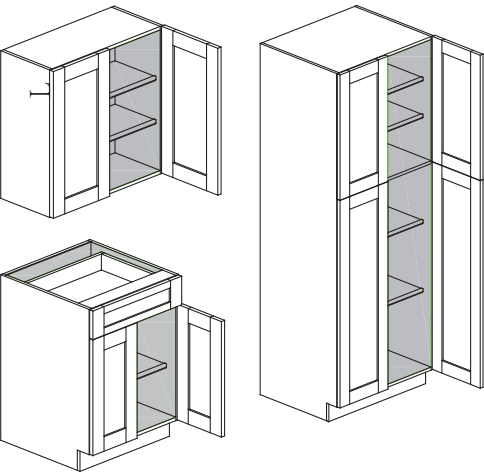

SOLID NATURAL WALNUT DRAWER BOX (DBKNW)

DBKNW**	12"/15"	18"/21"	24"/27"	30"/33"	Above 36"

READING THE CODE W301224 W (wall) 30 (width) 12 (height) 24 (depth)

Standard wall cabinet depth is 13" deep unless stated otherwise.

For total depth, add 15/16" which includes the door and bumper thickness.

You must specify how you would like us to finish your exposed ends.

We offer two solutions to finish exposed ends: veneer finished ends that are factory applied and decorative end panels. Common panels used are wall end panels and matching wall end panels which must be ordered separately and are applied by the installer in the field. Factory applied finished ends do not need to be used if you are using decorative end panels.

The cost for wall veneered finished ends can be found in the Modifications section.

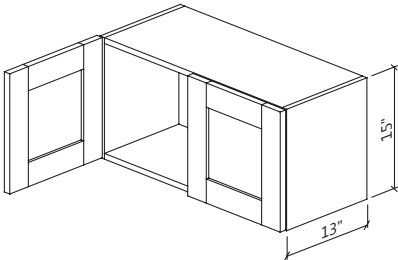

See our "Fillers and Panels" section for details regarding decorative end panels.

Wall Hoods

READING THE CODE WHCA4824 WH(wall hood) 48 (width) 24 (height)

- Hood should be set a minimum of 30" above the cooking surface.
- Wall connected hoods feature a wood and veneer construction.
- Metal hoods featured in this section come equipped with a blower and lighting insert included. See individual product descriptions for details
- Hoods can be either independent of the cabinet run or integrated into the cabinet run.
- Dealer is responsible for ensuring that hoods purchased meet local building codes and that the hood is securely installed.

CUSTOM HOOD PROGRAM

- Please provide customer service with the spec drawing for your selection and our technicians will create your one-of-a-kind hood. Custom quotes are required for all custom hoods.
- All custom hoods manufactured under this program feature wood construction.
- St. Martin will not factory install blowers purchased by an outside vendor.
- Includes laminate liner cut to size and fitted inside the hood body.
- Blower is not available or included.

ST MARTIN
FINE CABINETRY

BASE CABINETS

Base Cabinets

READING THE CODE B (base) 30 (width)

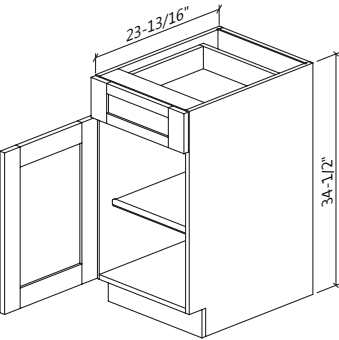

- Standard base cabinet depth is 23-13/16" unless stated otherwise. For total depth, add 15/16" which includes the door and bumper thickness. Standard base cabinet height is 34-1/2" unless stated otherwise.
- You must specify how you would like us to finish your exposed ends. We offer two solutions to finish exposed ends: veneer finished ends that are factory applied and decorative end panels. Common panels used are base end panels and matching base end panels which must be ordered separately and are applied by the installer in the field. See our "Fillers and Panels" section for details.
- The cost for finished sides can be found in the Modifications section.

- 24" wide unit will house a single drawer dishwasher when installed between two cabinets.
- Features one 12" high drawer front.

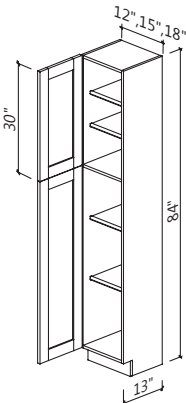

Tall Cabinets

READING THE CODE PC308413 PC (pantry) 30 (width) 84 (height) 13 (depth)

- Standard cabinet depth is 23-13/16" unless stated otherwise. For total depth, add 15/16" which includes the door and bumper thickness.
- You must specify how you would like us to finish your exposed ends. We offer two solutions to finish exposed ends: veneer finished ends that are factory app lied and decorative end panels. Common panels used are tall end panels and matching tall end panels which must be ordered separately and are applied by the installer in the field. See our "Fillers and Panels" section for details. 96" Tall cabinets may be ordered with toe kick space removed specify when ordering.
- The cost for finished sides can be found in the Modifications section.

CUSTOM	\$390/SF	\$390/SF	\$420/SF	\$420/SF	\$450/SF	\$450/SF	\$450/SF

The floating shelves are available with the following options:

- The top and bottom shelf is produced by 3/8" Al MDF core veneer with mathch-ing 3/4" solid wood trim on three sides.
- Standard height or thickness of shelf unit is 2 1/2".

Support Frame:

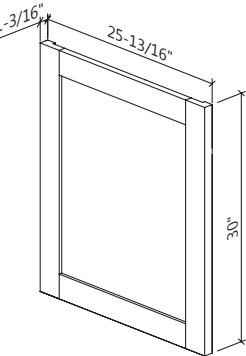

- Mounting brackets are metal.
- All floating shelves should be mounted to a minimum of two studs for shelves under 50" wide and three or more for over. We recommend high quality coarse thread screws at least 2 1/2" in total length with at least two screws per stud.
- After complete installation, it is recommended that the shelf be secured to the support frame using finishing nails or pins to prevent the shelf from sliding off the support.
- Installation brackets are included.
